

Environmental Consultant

Location: Fort St. John or Dawson Creek, BC

About the Opportunity

Come join our growing Peace practice as an experienced, professional and motivated Environmental Consultant located in Fort St. John or Dawson Creek, BC. Do you want to play a role in integrating environmental components on a wide range of projects and finding balanced solutions to further the importance of sustainability, conservation, biodiversity, and natural processes in our work? Come talk to us!

Our team of environmental professionals provide advice and work alongside clients to incorporate sustainability and conservation principles into community initiatives. You will be contributing your skills to be in service of our clients throughout Northeast BC and beyond, as well as helping us grow our practice in these regions. Responsibilities of this role:

- Coordinate regulatory approvals required by local, provincial, and federal agencies. These can include changes in and about a stream approvals, notifications, land tenures, water licences, DFO Request for Reviews and other regulatory applications.
- Collaborate with project teams to support:
 - Biophysical assessments and reporting
 - Phase 1 Environmental Site Assessments
 - Wetland, riparian, habitat and permanence assessments/restoration plans
 - Project design input and internal and external communications
 - Client support for key clients throughout the region and other offices
- Be a champion for the environment and our team, within and outside of Urban Systems

About You

Our preferred candidate will have a minimum of a diploma or B.Sc. in Biology, Ecology, Environmental Science or related discipline and be registered or eligible for registration with the BC the College of Applied Biology or the BC Institute of Agrologists. We are looking for five (5) years of proven experience in BC. These skills and abilities will also benefit for the role:

- An appreciation for consulting and a drive for establishing a self-directed and collaborative practice
- Strong technical skills which continually demonstrate capabilities as an environmental consultant
- A passion for sustainability and strong understanding for where the industry is headed in terms of policy, technology and best practices

- Strong knowledge of the BC and Northeast BC market, including key local and regional players, as well as an understanding of government environmental regulatory frameworks and policies
- Capable and enthusiastic about playing an integral role in regulatory advice and approvals, design input, and potential solutions as it relates to the environmental components of our projects
- Ability to develop and nurture positive interpersonal relationships with people from varying backgrounds including team members, clients, and partners
- Committed to ongoing personal and professional development
- Willing to travel to various communities in BC and other geographies of the company both to meet with clients as well as internal project teams

About Us

At Urban Systems:

- We are community consultants, brought together by our shared values, and a deep commitment to building vibrant communities.
- We're local, connected and invested in our communities.
- We're built on relationships.
- Curiosity and the pursuit of vibrancy inspires us.
- We care, and it's reflected in the work we do and in our culture.

Since 1975, we have grown to more than 500 people with 15 offices across Canada. Every day, our purpose-driven team works closely with our clients and their communities to deliver impactful work. We are proud to work with diverse clients including Indigenous communities, all levels of government, commercial and residential land developers, and the natural resource sector.

Our Commitment to You

At Urban Systems, our team is at the heart of everything we do, and we are committed to putting our people first! As part of our team, here are a few of the benefits you can expect:

- Competitive compensation and health, dental & vision package
- 3 weeks of paid vacation to start + statutory holidays
- Parental leave top-up for new parents
- Ongoing support for your professional growth & development
- Flexible work hours & environment
- A tight-knit culture exemplified by respect and inclusion for all
- Opportunities to create impact as part of an inter-disciplinary team

How to Apply

If this describes your background, skills and attributes, please visit our website for more information and submit your resume and cover letter.

Urban Systems is an equal opportunity employer. We strive to create an inclusive culture for all employees. Our clients come from all walks of life and so do you. We believe that diversity and unity amongst our teams leads to building vibrant communities.

Deadline for applications: **November 5, 2021 at 9:00 AM (PDT)**
